

Pathways Shifting Employment Services to Telephone Appointments and Supports

Today, we decided to postpone all in-person intake appointments and shift all services to telephone. As of Thursday, March 19th, Pathways will no longer be holding in person participant meetings.

The health of our entire community is of the utmost importance to us.

We continue to take steps to ensure social distancing protocols are implemented during this unprecedented situation.

Pathways Employment Services and supports remain available to the community. We are moving to phone-based services.

If you have an appointment booked with one of our Employment Counsellors, Employment Placement Specialists or Skills Coordinators you will receive a text message from us and/or phone call from a staff member, confirming your telephone appointment time.

Prior to today, the following steps were put in place to ensure the safety of all staff and clients.

- Enhanced cleaning protocols and inspections
- Hand sanitizers in every room
- social distancing & decreased physical contact.

We will continue to operate and serve our clients to help you overcome barriers and secure meaningful employment.

If you need to connect with our staff about any concerns or questions regarding your employment, please call into the office at 519-667-7795 or email info@pathways.on.ca.

We will continue to keep you informed of any changes to services as this situation progresses.

Sincerely,

Paul Hubert

CEO, Pathways Skill Development and Placement Centre
